About Workshop

Our Three-Day Workshop is a comprehensive tutorial as it offers the opportunity to make NEWBORN, TODDLER Casts in a variety of styles. A hands of parents/ couple, as well .

The client may choose to do this part or you can transform this for her. NEWBORN & TODDLERS Frames are hung in babies rooms & may be displayed on the wall or on a base. Colours enhance the beauty of these wonderful keepsakes.

This has added value for you as you will have a client ready to go to the next step and do a hand/foot casting of their newborn.

Children's Hands/Feet casting sculptures are the ever-important element in our program.

We provide models for adult and baby castings along with the full spectrum of the process.

Safe , non toxic and gentle materials for taking the impression as well as a comfortable and safe environment for our clients.

About Workshop

Quality Frames with acid-free matting are what takes our products to the next level.

Learn how to order, assemble the sculptures and secure to the mat, layer the matting for an incredible display.

Finishing the back of frames with proper hooks is essential for professional quality.

You will learn to create a Single -Window Shadow Box with a frame in the centre window as well as take one home to make your first sample.

We cover children and adult hand castings, couple casting including framing and display methods as well as samples to take home.

We will also provide the tools and supplies and where to purchase items. All materials, supplies, and tools included during the workshop.

Whether a paying hobby or a full-time home business, training with a professional is important.

Avoid costly mistakes of trial and error and start your business as soon as you go home.
